Redux	JavaScript (ES6+)
TypeScript	HTML
Firebase (Auth, Messaging, Firestore)	Dev Tools: Git, VS Code, Postman, GitLab
Other: REST APIs, Socket.IO, Google Maps, Social Auth	Backend & APIs: Node.js, Express.js, REST APIs, Socket.IO
Databases & Cloud: Firebase (Auth, Firestore, Cloud Messaging), MongoDB	

📁 WORK EXPERIENCE

Lahore, Pakistan

Senior React Native Developer (Team Lead)

TheWebieStorms

- Led development and architecture of multiple cross-platform mobile apps using **React Native**, **TypeScript**, and **Redux Toolkit**.
- Managed and mentored a team of 4+ junior developers, conducting regular code reviews and knowledge-sharing sessions.
- Improved application performance by optimizing memory usage, network requests, and component rendering.
- Designed scalable UI components ensuring a seamless and consistent **UX** across iOS and Android platforms.
- Collaborated closely with product managers and designers to meet sprint goals using **Agile (Scrum)** methodology.

- Integrated **Firestore** services (Authentication, Cloud Messaging, Firestore) and **Socket.IO** for real-time data features.
- Actively participated in client discussions, technical planning, and delivery to ensure stakeholder satisfaction.

Lahore, Pakistan

Mobile App Developer

OutsourceNZ

- Developed and maintained hybrid mobile apps for both Android and iOS platforms using **React Native**.
- Focused on **UI design** and seamless **REST API** integrations to ensure data consistency and responsiveness.
- Used **Redux** and **Redux Persist** for efficient state management across sessions.
- Integrated third-party APIs and services including **Firestore Push Notifications** and **Social Authentication**.
- Actively participated in daily standups and sprint planning with an international remote team.

React Native Developer

Prismatic Technologies

- Created dynamic mobile interfaces for various client applications with **React Native**.
- Collaborated with backend developers to consume and test **REST APIs**.
- Implemented responsive layouts and reusable UI components to meet customer requirements.
- Participated in app debugging, testing, and deployment processes.

PROJECTS

Mish Carpooling App | React Native, Firestore, Redux Toolkit

- Carpooling app connecting users across New Zealand.
- iOS | Android

Carvonix | React Native, Firestore, Social Login

- Social platform for car enthusiasts to share vehicles and organize events.
- Android

iSqrroll | React Native, Firestore, Google Maps

- Community marketplace app with safe buyer-seller interaction.
- Android

LocumBridge | React Native, Firestore Auth, Push Notifications

- Healthcare staffing platform for locums and clinics.
- iOS | Android

MyBeneFITs NZ | React Native, Firestore Analytics

- Fitness app that rewards users with discounts for regular workouts.
- iOS | Android

Ponataki | React Native, Firebase, Educational App

- Language learning app promoting the Niue language with interactive lessons.
- iOS  | Android 

iSscroll | React Native, Firebase, Google Maps

- Community marketplace app with safe buyer-seller interaction.
- Android 

SafeSign | React Native, Firebase, OCR, Media Integration

- App for recognizing road signs with image scanning and multimedia feedback.
- iOS  | Android 

PetPal SG | React Native, Firebase, Multimedia Upload

- Platform for pet adoption, pet spotting, and connecting pet lovers in Singapore.
- iOS  | Android 

Front Row Business & Customer | React Native, Booking System, Firebase

- Dual apps allowing businesses to register and users to book car services.
- Business Android  | Customer iOS 

Complaint Management App | React Native, Firebase, Barcode Scanner

- Complaint tracking platform for customers, staff, and admins with barcode scanning.
- iOS  | Android 

Task Manager | React Native, Firebase, Performance Tracking

- Daily task management and employee performance evaluation app.
- Android 

HULIK Suite | React Native, Firebase, Food Delivery Ecosystem

- Clone of food delivery platforms with apps for users, drivers, and restaurants.
- Customer  | Driver  | Restaurant 

Schoovia | React Native, Firebase, School Communication

School-parent communication platform (under development).

Bug Control - Patient Management | React Native, Firebase, Healthcare

Patient Management

- Hospital app for storing patient data and tracking disease trends.

Maidan Ground Management

- **Organized a digital platform** to streamline football match arrangements, connecting players, games, and sports arenas across local areas.
-  **Enabled users to register for free** and effortlessly create or join football matches within their city or region.
-  **Implemented post-match analytics** and performance tracking features to help players monitor their progress and stay engaged.
-  **Launched an integrated sports marketplace** within the app, offering high-quality sporting goods and merchandise throughout Pakistan.
-  **Promoted active sports participation** by simplifying match scheduling and boosting local community engagement in football.
-  **Enhanced user experience** through performance insights, organized gameplay, and accessible sports gear in one platform.
-  **Built a vibrant social sports**
